RF Passive Microwave Component Division

M2 is a leading supplier of passive microwave components, specializing in the design and manufacture of RF Circulators & Isolators. Our products cover the range of 380MHz to 40GHz and are available in Coaxial, Drop-In, or Waveguide configurations.

Contract Manufacturing Division

Offering a wide variety of Contract Mfg services & can respond to your prototype, quick turn, and full-rate production requirements. M2 Global facilities include the latest in CNC precision machining, fabrications, welding, metal castings, brazing, and electro-mechanical assembly for materials ranging from sheet metal to plastics. Metal finishing includes complete chemical finish, paint, and silk-screening operations.

A Partner of Trilogy Defense Services www.trilogy-ds.com, and selectee for the USAF's Manufacturing Technical Assistance Production Program (MTAPP) www.selltoairforce.org

M2 GLOBAL CUSTOMER SATISFACTION RESULTS

March 6th, 2006
San Antonio, TX

M2 Global Technology, Ltd. Is pleased to announce the results of its annual customer satisfaction survey, which surpassed the high ratings achieved last year. M2 Global's customer satisfaction scores rose from 90.7% in 2001 to 96.8% in 2005, an increase of 6.1%. The survey was conducted by Business Improvement Solutions, an industry-independent survey group.

Don Pankey, president, Business Improvement Solutions, noted, "For the fifth consecutive year since the survey was initiated, M2 Global's customer satisfaction ratings have risen. This is particularly impressive in an industry where trends for customer satisfaction have declined due to the downturn in the telecommunications sector." Business Improvement Solutions, headquartered in Melbourne, Florida, offers a complete line of services for assessing, planning, and implementing business improvements.

In all three categories—Customer Satisfaction Index, Customer Loyalty Index, and Overall Vendor Performance—M2 Global scored among the best in the RF component industry. The company received its highest scores for the following factors: understanding customers' needs, producing competitive products, and product reliability. One hundred percent of the customers surveyed indicated that they would continue to purchase from M2 Global and would recommend the company to others.

According to Doug Carlberg, chairman, M2 Global, "The high survey scores are a testament to M2 Global's strong commitment to quality, customer service, and responsiveness to the needs of our customers."

M2 Global Technology is an SBA service disabled veteran-owned, AS9100 and ISO 9001-registered worldwide provider of contract manufacturing services and microwave passive components for the aerospace, defense, and telecommunications industries.
